AUTONOMOUS POOL ROBOT

► FEATURES

- **Autonomous** – Wireless operation, unrestricted by power cable, can be used for pools of various sizes.
- **Patented “Stop & Go” System** – Provides an efficient cleaning experience, no more waiting for timer of a conventional robot to run down before it changes direction.
- **Filter** – Stainless steel mesh that is easy to clean.
- **Bagless Debris Management** – Spacious compartment to trap a large amount of debris with the stainless steel mesh.
- **Compact** – Compact and lightweight design allows effortless transportation in/out of pool.
- **Versatility** – Works for both in-ground/above-ground pools with a flat bottom, as well as all types of surfaces such as vinyl, polyester, mosaic, and concrete.
- **Pool Size** – Ideal for pools up to 45m² / 484ft².
- **Lithium Rechargeable Batteries** – Immune from memory effect, consistent performance, extended life.
- **LED Battery Indicator** – Lights up during robot operation, begins to blink when 10 minutes of usage remains.
- **Automatic “On/Off” System** – Motor automatically activates by water contact.
- **Magnetic Switch** – Absolute sealing to prevent water leakage.
- **Value for money** – The most competitive entry-level model on the market.

► SPECIFICATIONS

- **Debris Capacity** – 4.5L
- **Working Time** – 90 minutes
- **Charging Time** – 5 hours
- **Flow Rate** – 45L/min
- **Battery Type** – Li-ion 4000mAh, 7.4V

► INCLUDED

- 1 Robot
- 1 Charging Cable
- 1 Stainless Steel Filter
- 1 Hook and 1 Float for retrieval
- 2 Detachable Bumpers
- 4 Sets of Soft Blades
